

# My Day at University: Short Film

---

In our module, we would like to learn more about university and student culture in Germany as well as at your home universities. We want to share our personal experiences with each other

Therefore, we are asking you to create a short film (approximately 5 minutes) with your mobile phone to share with us before our third meeting.

*For your short film, please film impressions of a „normal“ day at university.*

*Show us...*

*... how you start your day: Are there any rituals? Where do you eat your breakfast? What do you have for breakfast? ...*

*... where you live: Give us a tour through your dorm or apartment: Which rooms are important to you? Do you share spaces with others? ...*

*... your way to University: e.g. means of transportation, stops along the way, ... .*

*... where and how you study: What does your classroom/laboratory look like? In what ways do you study/learn? What are important teaching methods? Show us the library, and other important places for studying.*

*... your favorite place on campus.*

*... what you do in your free time: Where do you have lunch? Where and how do you meet friends? What do you do together? What hobbies do you have?*

Feel free to add other aspects of university culture. We are looking forward to getting to know your personal impressions. Thank you for sharing them with us!
